How to Use This Book

Each unit in this book includes nine parts designed to assist young learners of English in discovering their English listening and speaking abilities.

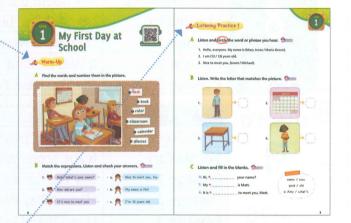

Each unit presents the skills needed to listen and speak effectively about a range of everyday topics relevant to the lives of young learners. The series introduces students to a variety of high-frequency vocabulary and grammar structures necessary for building a foundation in English. In addition, there are online supplemental materials to give learners additional practice.

Student Book

Warm-Up

Part A introduces the main target words for the unit. Students match the words with the picture. This visual support enables students to create an association with new words. Because answers may vary, a sample is provided in the answer key.

Part B introduces key expressions which appear in the unit. Students match expressions with the appropriate responses.

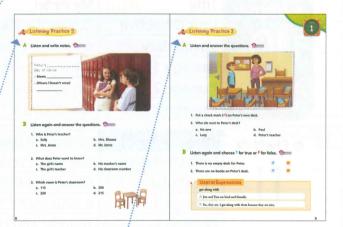

Listening Practice 1

Part A focuses on target vocabulary, Part B incorporates target vocabulary and the target grammar for the unit, and in Part C students complete a mini-dialogue.

Listening Practice 2

Exposure to the target vocabulary and grammar is provided in an extended dialogue. Students practice the academic skill of note-taking and then answer three comprehension questions.

Listening Practice 3

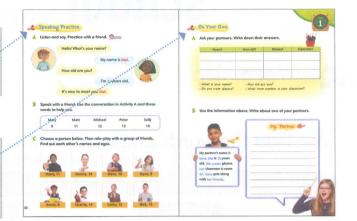

This section provides additional exposure to the target vocabulary of the unit in a new context. Students complete a variety of activities including filling in charts, identifying parts of a picture, and answering True/False and comprehension questions. This section also introduces a useful expression: a challenging, but practical English phrase.

Speaking Practice

In Speaking Practice, students produce the vocabulary and grammar of the unit in short role plays with classmates.

On Your Own

This section reviews target vocabulary and grammar for the unit and provides students with an opportunity to use what they have learned in personalized speaking and writing activities.

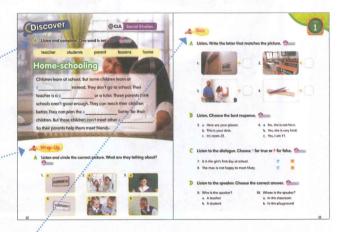

Discover

In this CLIL (Content and Language Integrated Learning) section, students listen to a monologue on a topic that moves away from the English classroom and into the wider world of learning. Students are also able to practice their writing skills.

Wrap-Up

This engaging task differs between units.
Students listen to a monologue or dialogue and review their understanding of the unit theme, vocabulary, and grammar.

Quiz

Quiz reviews the material covered in the unit in test format.

Downloadable Supplemental Materials

Midterm Tests, Final Tests, MP3 Audio, Word Lists, Word Tests, Transcripts, and Answer Keys provide additional teacher and student support.
